PLAN

What is the objective for this cycle? *

Increasing efficiency of documentation

What do you predict will happen? *

Better documentation that is easy to find and track

What is the plan for the cycle? What are the steps to execute the cycle, including data collection (who, what, where, when)? *

Using a standard dot phrase as part of the note under the plan section:

Rheumatoid Arthritis Therapy Goals:

-Disease activity measure/status:

-Therapy Goal: Low/Remission

-Therapy/change:

-Shared Decision Making:

This dot phrase would be added to our note under the plan section to make the information easy to find/track

DO

What did you observe? Include descriptions of successful encounters, problems, and other special circumstances that may or may not have been part of the plan. *

pending

STUDY

Summarize and analyze the observed results. What did you learn from this cycle? *

pending

Do the results agree with the predictions you listed in the “Plan” phase? *

Yes

No

Other: pending

ACT

What action are you going to take as a result of this cycle? *

Adapt the test

Plan for the next cycle. What changes are needed? If expanding or adapting, what will you do to continue your learning while beginning to spread the successes? *

Possibly making an entire RA note template instead of a dot phrase
