PDSA Title \*

Documentation

Month \*

December

PLAN

What is the objective for this cycle? \*

The objective for this cycle is to identify any changes in the past month

What do you predict will happen? \*

Better understanding of the patients disease activity in order to find best possible solution to treat

What is the plan for the cycle? What are the steps to execute the cycle, including data collection (who, what, where, when)? \*

Every patient is given a rapid 3 form, which is then scanned into the computer for easy access. Computers available in every room to review Rapid 3 with patient. Explain purpose of Rapid 3 w patient and importance of rapid 3 for treatment. Bring to patients attention the improvements/ declines that are potentially identified using the rapid 3.

DO

What did you observe? Include descriptions of successful encounters, problems, and other special circumstances that may or may not have been part of the plan. \*

Patients are frustrated with completing rapid 3 -"there are no changes"  
Patients do not initially feel the rapid 3 is an effective tool in managing their care

STUDY

Summarize and analyze the observed results. What did you learn from this cycle? \*

Patients seemed disengaged with their care due to a high level of stress in the month of December.

Do the results agree with the predictions you listed in the “Plan” phase? \*

Yes

No

Other: .....

## ACT

What action are you going to take as a result of this cycle? \*

Adapt the test ▼

Plan for the next cycle. What changes are needed? If expanding or adapting, what will you do to continue your learning while beginning to spread the successes? \*

Discuss objective score from the Rapid 3 with the patient. Share the importance of objective measurements with other clinicians to improving patient care.
