

Connecting with the VERITY Bioinformatics Core

Bioinformatics Core vs traditional biomarker core

Existing methods, pipeline, tools:

- NLP
- PheCAP
- etc

studyID	ICD	NLP_x
1235123	0	3
1435661	24	347
...

Accessing Bioinformatics Core Services

Step 1, email Jackie, jstratton1@bwh.harvard.edu

- Example of projects:
 - NLP to extract concepts for updated algorithm on RA
 - Using NLP to facilitate chart reviews
 - Using embedding data to identify potential features for algorithm

Note: The Core at this time cannot provide support for consulting on implementing pipeline or co-authoring grant proposals

Thank you
